FRAGRANT ISLAND

Discover the enchanting Nosy Be, known in Malagasy as "Nosy Manitra," the fragrant island. This tropical paradise owes its name to the lush plantations of vanilla, cinnamon, pepper, and Ylang Ylang. As the sun sets, let yourself be enveloped by its unforgettable fragrances, transforming every sunset into a unique sensory experience.

Covering approximately 400 km², Nosy Be, also known as the "big island," is the largest gem of the Madagascar archipelago. Its rugged coastline is home to bays and coves, adorned with deserted beaches and lush vegetation of palms and tropical trees stretching to the ocean.

The island also boasts 12 natural lakes, which serve as a vital water reserve for the local flora, fauna, and inhabitants.
